

Kiran Juikar

Flat No - 201, New Dawn Terrace Apt,
BhairavNagar, Pune India.

kiran@protolive.com

Mobile +91-9881234950

Experience

- 10+ years of experience working as software developer and Solution Architect.
- Designed and developed solutions on iOS, Microsoft .Net.
- Strength & Passion in developing iPhone, iPad applications using Cocoa & Objective-C.
- Expert in Object Oriented design patterns & how to use them in Objective-C.
- Complete comprehension of Memory Management in Objective-C & performance optimization technique.
- OpenGL, UIKit, Quartz framework for graphic applications
- Expertise on Source Control systems like GitHub, SVN, TFS.
- Proficient in Objective- C, Java, Distributed technologies, O.S, Database, Network, Design and Analysis of Algorithms, Parallel Processing.
- AWS, Dropbox, Social Login integration

Skill set

OS	Mac OS X 10.8, Windows 7
Technologies	iPhone SDK programming, PHP
Languages and Tools	Objective-C, C++, c#, XML, JQuery, XCode 6, AWS, Dropbox, PHP
Databases	SQLite, MS SQL Server 2008, MySQL, Couch db,
PM Tools	XPlanner, TFS, Pivotal Tracker

Work Experience

Tabtor, Protolive Software, www.cybage.com

- Technical Architect

Responsibilities:

- Handled iPhone and iPod Touch application development
- Created innovative applications for the iPhone or iPad
- Handled design and development of mobile applications for iPhone.
- Built iPhone and iPad games from beginning to end
- Partnered with designers to help define and implement User Interface
- Performance Optimization of overall user experience

Project Experience

1. **Project Name:** Tabtor <http://www.tabtor.com>

Technologies: Objective-C, UIKit, Quartz, Dropbox, AWS, Couch DB, PHP

Operating Systems: iOS 8.0

2. _____

Project Name: SVGNotes (iPad) <http://www.svgnotes.com>

Technologies: Objective-C, UIKit, Quartz, Dropbox, AWS

Operating Systems: iOS 6.0

Project Description:

SVG Notes is a native iOS application that allows users easily take notes, create drawings and multi-page book in Scalar Vector Graphics 1.2 specification. These books can be shared with friends or certain individuals using email notification. The application supports standard SVG path elements, free-hand drawings, shapes, text and all standard Graphical Transformations. The app provides seamless Dropbox integration for data storage and retrieval.

Role and Responsibility in project:

- Designing new modules using different design patterns.
- Following SVG standards in drawing, PDF, image creation, SVG representation of graphic
- Managing the graphics layer for better performance, Line smoothing algorithm, Animation support
- Dropbox integration & sync functionality
- Social Login integration using
- Leading team & managing the releases.
- User Interface designing and coding. Performance optimization.
- Functional testing, backend testing and team handling.

3. _____

Project Name: CourseOwner (iPad) <http://courseowner.com>

Technologies: Objective-C, UIKit, AWS

Operating Systems: iOS 6.0

Project Description:

CourseOwner is a native iOS application that allows students to manage their courses. Courses designed can be executed by students. Tracking the progress & creating progress
