9-yards peelworks

OCT 2014 TO PRESENT

<https://9yards.peel-works.com/peelworkscustomer/>

9-Yards is a product of peelworks. And this is for HR management. And we are having great clients like HUL, GSK, Tatasky, Airtel, Pepsi, any many more.

In this we are managing all the incentive, their attendance, promotions, pay-rolls etc.

My role is to create the mobile interface to that product. so all the employee can check their progress. It include all the feature which are available in the web.

Technologies used : Android SDK.

Libraries: Picaso, GreenDAO, Crashlytics, and many more

Lakme

JUN 2014 TO OCT 2014

Lakme is a counter management application, to manage the stylist at the counter, their attendance and the stock update, sales, complaint management, and skill development.

My responsibilities was to develop the UI, backend integration with web Rest api, database management, Image processing.

Technologies used: Android SDK, Groovy on Grails for server side, SQLite for database management.

Libraries used: Picaso, Crashlytics, android supportV4, etc

McDonalds Germany

FEB 2014 TO MAY 2014

<https://play.google.com/store/apps/details?id=de.mcdonalds.mcdonaldsinfoapp&hl=en>

McD is a famous fast food chain, and we got the chance to McD app maintenance, It was a promotion feature for McD at the time of FIFA world cup 2014. User have to collect the coupons from the McD boxes and send via app and they get the gifts according to it.

My responsibilities was to develop the UI, backend integration with Rest api, And integrating ABBYY library.

Technologies used: Android SDK

Libraries used: Picaso, ABBYY, etc

FourthLion

OCT 2013 TO FEB 2014

It a phonegap based application for campaigning management. Organize and schedule meetings, Invites and promotions

My responsibilities was to develop the UI, backend integration with web Rest api, database management, Image processing.
