Languages	C, Core Java, JavaScript, Html, CSS, JQuery and Basic Xml
Database	MySQL, DB2
Tools	Eclipse, Worklight
API'S	Google map, Geo coding, Reverse Geocoding, Custom Search etc.
Subject of Interest	Database Management System

Internship:

Project Title: BLOOD 4 INDIA(Extensive use of JavaScript and JQuery)

Organization: IBM (Career Education Program)

Period: 2 weeks (Jan 2014)

Brief: It is a mobile application for creating awareness, motivating people to donate blood and to collect Blood Donor information. Through donor information people who require blood can contact donor for blood donation. The aim of this application is that no citizen of India should die due to shortage of blood. The database I have created is cloud connected. **Tools:** Eclipse, Worklight **Backend:** MySQL

Project Title: COURSE MANAGEMENT SYSTEM

Organization: Microsoft Academy

Period: 5 weeks (June 2014-July 2014)

Brief: For every education institution there must be regular interaction between students and instructors for submitting assignments, projects, thesis and get feedback. This project helps students to submit their project and they can get reviews from the faculties by using their login id. In this process students and instructors time can be save. **Frontend:** Core java **Backend:** MySQL

Projects Undertaken:

LOCATE LOCAL BUS (Ongoing):

Brief: Today people are using their personal vehicle more for going out for any work insist of public transport(like buses).The main problem of not using bus is that there is no certainty when the bus will come(in next 2 minutes or in next 30 minutes).This application helps people to locate local bus and also help them to know in how much time bus will be arriving at nearest bus stop.

Tools: Eclipse, Worklight, Cordova (for GPS) **Backend:** MySQL

NEWS FEED:

Brief: This is a mobile application which focuses on the people who don't have time to keep themselves updated for the latest news. In this they can select their choices (like sport news or other) and they will have related news on their phones. This app save time of searching and you will get latest news in the field of your choice.

Tools: Eclipse, Worklight

Strength:

- Team Player
- Adaptable Nature
- Strong Determination

Interests:

- Playing Cricket.
- Surfing internet for latest technologies in software.

Extra-Curricular
