#PROJECTS

An approach to Indoor Navigation and Routing using PostGIS

Created a simulation for pinpointing the location of a user in a geographical plane using three access points. Also provided Shortest Distance Path between source and destination.
Stored and retrieved spatial information using PostGIS component of PostgreSQL Database.

Team Size : 3 Members

Online Compilation, Execution and Assessment of a C Program

Created a Client-Server Application which would allow the client to run its C code on a Server. Used "gcc" compiler and concurrent TCP server to handle multiple requests at the same time.

Team Size : 6 Members

#SKILL_SET ----- #LEVEL

C ----- Good

C ++ ----- Good

Java ----- Intermediate

SQL ----- Intermediate

HTML/CSS/JQUERY ----- Good

BASH ----- Intermediate

Ruby ----- Intermediate

#WORK_EXPERIENCE

2014 till Present Day

- Joined [Aricent](#) on June 2014
- Attended 3 months intensive training on Networking using C and OOP using Java.
- By September, sent onsite to work on DELL S4810 Switches.
- Worked on Feature Addition to enhance OMI support for DELL Switches, using Ruby and C.
- Worked on Code Optimization to boost performance and decrease lines of code

Team Size : 20+ Members

Also worked on Web Development – www.tudlr.com , www.tezoro.org/2014

#FREE_TIME

Roam around in my Bicycle
in search of new places

Watching movies, highly
rated ones by IMDB

Eating out with friends

Reading about new
technologies

Listening to Music online
