## Objective

To solve or minimize real world problems by writing programs.

## Summary

- Over 5 years of experience as software developer and about 2 years as iOS developer.
- B. Tech in Computer Engineering from VJTI, one of the premier institutions in the India.
- Excellent problem solving skills, ability to quickly learn new programming languages, strong work ethic, great interpersonal skills and good analytical skills.
- Strong background in OOPs, Design Patterns and Analysis and Design of Algorithms.
- A believer in automating repetitive tasks by writing scripts in Ruby.
- Create engaging user interface quickly in iOS.

## Experience

SDE II at Landmark Group, Bangalore

[Sep 2014 to present]

- Landmarkshops iOS app: Responsible for developing the Landmarkshops e-commerce app for iOS.

SDE II at Olacabs, Bangalore

[Aug 2012 to Aug 2014]

- Olacabs iOS app (version 2.1): Solely responsible for developing the Olacabs iOS app which allows the user to search and set a pickup location, book a cab, cancel a ride, track ride, see details of his rides, email invoice etc. The app won the mBillionth award in Travel category in 2013.
- Auto allotter for bookings (version 1.0): A ruby app that allots the nearest cab to a booking with no human intervention. Solely responsible for end-to-end development.
- Instant booking advisor (version 1.0): A ruby app that helps the agents to decide whether to take more bookings from a certain location at a given time. Solely responsible for end-to-end development.
- Consumer API (version 2.1): A RESTful ruby app that serves the Olacabs mobile apps (Android, iOS and Windows) along with the website. Responsible for developing new features along with constantly improving legacy features.
- Participate in hiring new talent for the technology team and coaching them.

Software Developer at Avaya, Pune

[Aug 2009 to Aug 2012]

- Avaya one-X Mobile SIP for iOS: Responsible for developing features for 6.2 release of the app.
- Avaya one-X Communicator: Solely responsible for full life cycle of development, testing, deployment and maintenance of one-X Communicator add-ins/integrations for Microsoft Internet Explorer, Mozilla Firefox and Microsoft Outlook. Responsible for development and maintenance of headset interface clients for this soft-phone.

## Education

B. Tech, Computer Science, VJTI (6.7 CPI)

[2005 to 2009]

- Implemented Biometrics fingerprint recognition system (java) and University admission system (JSP) as college projects.
- Runner-up at Game Programming event at Technovanza 2008, an annual technical festival at VJTI where I created an air-glider game in C++.

XII grade, Mumbai (80.5%)

[2005]

- Amongst Top 10% in Part A of the National Standard Examination in Physics (NSEP) held at Smt. CHM College

X grade, Mumbai (82.9%)

[2003]

- Secured 85% in inter-school intelligence test held in Ulhasnagar.

## Skills

Skill	Expertise
Ruby on rails	Excellent
iOS development	Excellent
OOPs	Excellent
Design Patterns	Excellent
Using Xcode, Eclipse, Aptana IDEs	Excellent
Agile	Excellent
Algorithms and Data Structures	Good
