PROFILE

I'm passionate about my work and always eager to learn new things. While I enjoy all aspects of my job,I think my favorite stage of a project is working with client or business leader to understand his/her business objectives. As we go through that collaborative process, the ideas start to flow and that's always the fun part.

I have an Bachelor of Engineering(Computer Science) from Anna University,Chennai. I learnt(experimented) a lot of things during that period. My Interest towards programming and computer games are the prime reasons behind my interest. I'm inspired by the saying "Stay Hungry,Stay Foolish"

EXPERIENCE

Software Engineer
ABOVE Solutions Inc
June 2014 - Present
